PERSONAL PROFILE:

Freelance artist with strong communication skills, graduated in Nov 2024 with a Bachelor of Design, majoring in Games and Interactive Design from Edith Cowan University. My diverse employment history has enriched my understanding of people from all walks of life. I have consistently applied my problem-solving skills when working with Adobe Creative Cloud suite apps and Unity for my personal projects.

EDUCATION:

- **Bachelor of Design: Games and Interactive Design**
Edith Cowan University
Perth WA – Nov 2024
- **Diploma of Communications & Creative Industries**
Edith Cowan College- Perth WA, Nov 2022

Achievements: High achieving student Edith Cowan College Award 2023

SKILLS:

- **Initiative and creativity:** A 'Get it done' attitude drives my work ethic, and I use creativity to overcome obstacles, consistently pushing boundaries and delivering results that surpass expectations.
- **Teamwork:** I have always created a supportive and friendly environment for colleagues at my workplace because I believe that teamwork is the road to success.
- **Cultural sensitivity:** When designing an interface, website or game, I will honour the unique perspectives and traditions of diverse communities, fostering inclusivity, empathy, and understanding through every interaction and narrative choice.

TECHNICAL SKILLS:

- Applied **UI/UX design fundamentals** in the development of a mobile app design.
- **PNG and SVG** image creation in **Illustrator** for an **interactive animation**.
- **Video game development** using Unity game engine and **C# coding language** where I developed it with my own assets;
- **3D Modelling and animation:** Created 3D models and animated characters for games.

COMPUTER SOFTWARE:

- **Design:** Adobe Creative Cloud (Photoshop, Illustrator, Animate), Autodesk Maya (for 3D character design), Blender 3D (For 3D models),
- **Development:** Unity game engine (For game development), SQL basics, Apache, MySQL

- **Coding languages:** Python basic programming, HTML/CSS/(Web design) <https://mytzike.github.io/BCC/>, C#(For game development), JavaScript(front-end validation), PHP(server-side validation)
- **Communication:** Zoom, Teams, Skype, Microsoft Office
